

ROADBOND EN 1

HOME DEPOT

Access Road

August 2001

Roadbond EN 1 was applied to the clay soil and mixed to a depth of 6 inches.

ROADBOND EN 1

HOME DEPOT

Access Road

August 2001

The treated material was mixed, compacted and finished in only one day.

ROADBOND EN 1

HOME DEPOT

Access Road

August 2001

A two-inch asphalt overlay was placed on the stabilized road three days after the project was started.

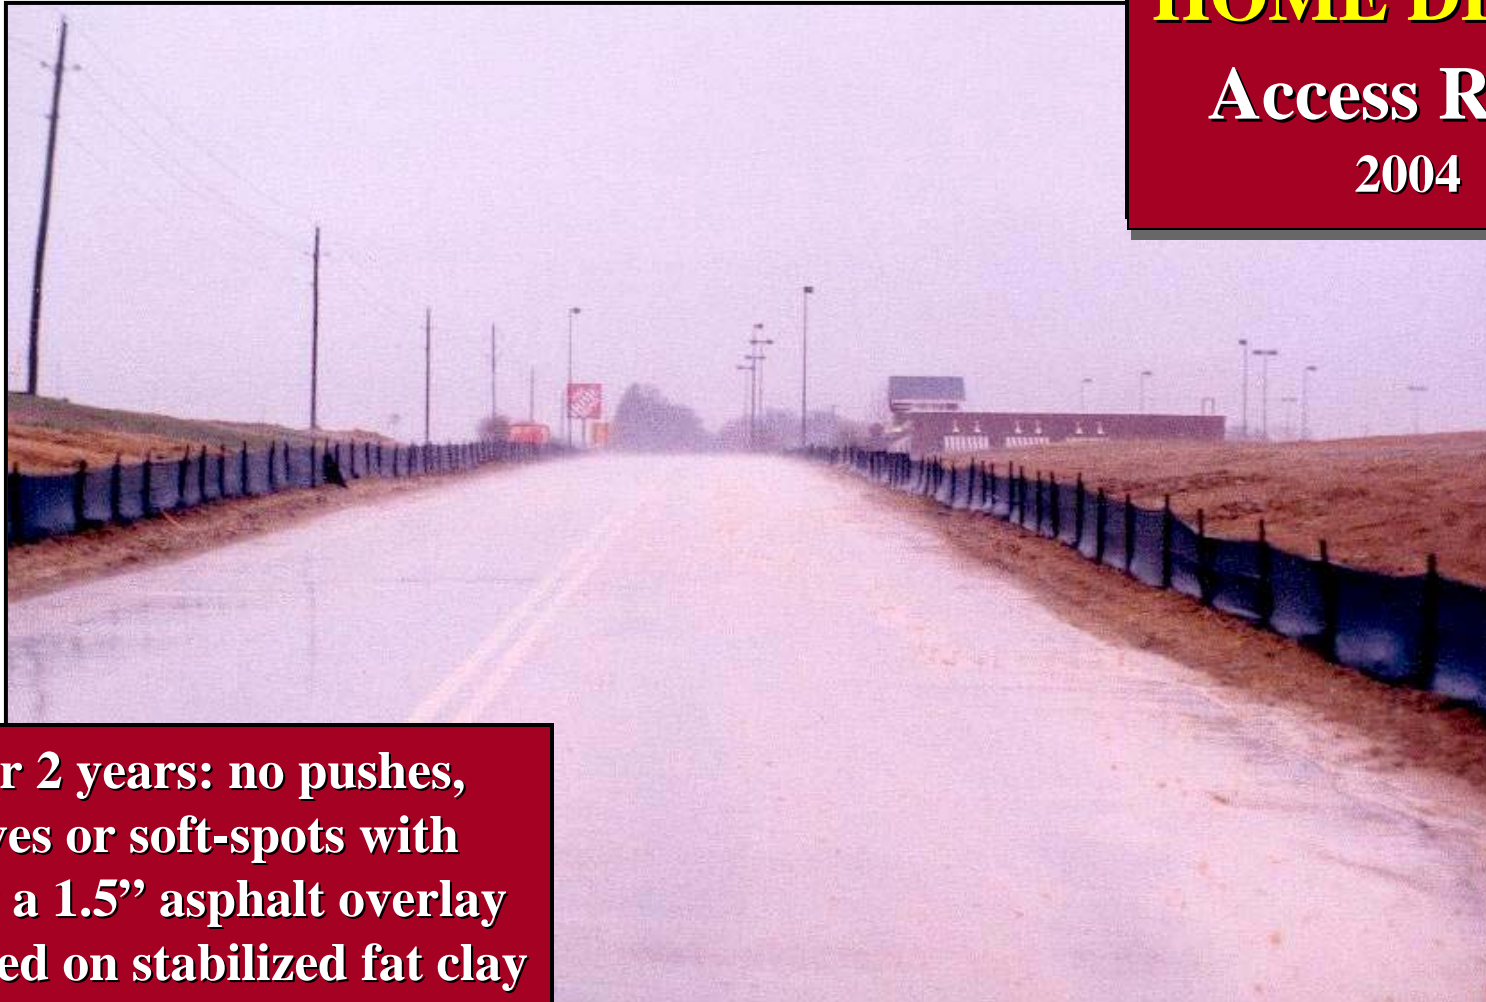

ROADBOND EN 1

HOME DEPOT

Access Road

2004

After 2 years: no pushes, heaves or soft-spots with only a 1.5" asphalt overlay placed on stabilized fat clay soil.
