---

To Whom It May Concern:

On behalf of the R. M. of St. Andrews as a Councillor for the past seven years and Public Works Chairperson for six of those years I am pleased to share some history of the Municipalities road program.

Since the year 2000, the R. M. of St. Andrews has seal coated over 60 KM of roads with all having EN 1 been incorporated into the base. The R. M. is very satisfied with the performance of these roads and has implemented road construction standards for all developers of any new residential development to include EN 1. We experienced a river bank slide in 2005 which removed about 16" from the edge of River Road which left the edge exposed for about 150'. The exposed gravel edge was left vertical and remained the same until the road was fixed this spring. The base was like concrete and nothing was undermined even with all the rains last year.

The R. M. of St. Andrews is a member of the Manitoba Good Roads Association and has received awards three times in the past seven years. The Council and Staff are all very proud of the plaques which hang on our walls today and we consider this to be quite an accomplishment.

Yours truly,

Ralph Boch  
Public Works Chairman
