

CITY OF
Huntsville

Incorporated in 1845 under the Republic of Texas

February 2, 2006

To Whom It May Concern:

The City of Huntsville has used Roadbond EN-1 on several projects in our jurisdiction. Our experience with the application of this material for stabilization has been satisfactory when used with the correct soil and drainage parameters.

I was impressed with the fact that you can blue top the subgrade before application and after the mixing operation all material could be bladed and compacted back to same grade without removing some of the material or allowing for subgrade expansion as I have experienced with lime applications. This property indicates that a denser subgrade has been achieved; therefore a stronger subgrade has been constructed.

We have several completed projects that we would be more than willing to exhibit to verify our results.

If you need more information, please feel free to call me at 936-294-5727.

Sincerely,

David F. Welch
Street Services Superintendent

PUBLIC WORKS DEPARTMENT

448 State Hwy. 75 North • Huntsville, TX 77320-1118 • 936.294-5700 • 936.294-5701 fax • www.ci.huntsville.tx

Our vision for the City of Huntsville is a community that is beautiful, historic, culturally diverse, affordable, safe, and well planned with great opportunity for our citizens.
